IT Expert Manufacturing & EMEA Applications

Aplica tu Magia con nosotros

¿Estás listo para explorar, romper barreras y descubrir mucho más? Sabemos que tienes grandes planes. Nosotros, también, innovar con la ciencia y la tecnología para enriquecer la vida de las personas con las soluciones en Healthcare, Life Science y Electronics apasiona a nuestros colegas en el mundo entero. Juntos, soñamos en grande y compartimos el entusiasmo por cuidar a una gran diversidad de personas, clientes, pacientes y al planeta. Por eso, siempre buscamos mentes curiosas que imaginen lo nunca visto con nosotros.

Unidos como uno solo para los pacientes: nuestra meta en Healthcare es ayudar a crear, mejorar y prolongar vidas. Creamos tratamientos, dispositivos inteligentes y tecnologías innovadoras en campos terapéuticos como la oncología, la neurología y la fertilidad. Nuestros equipos colaboran en 6 continentes con pasión y una curiosidad incesante con el objetivo de ayudar a los pacientes en cada etapa de su vida. Unirte a nuestro equipo de Healthcare significa formar parte de una cultura de trabajo diversa, inclusiva y flexible, que ofrece fantásticas oportunidades para el desarrollo personal y profesional en todo el planeta.

Your role: Within this role you deliver IT projects and services for business applications in the Manufacturing, Supply Chain & Quality IT domain. You support site specific applications including quality and shop floor systems in collaboration with local end-users and business stakeholders. You manage external delivery staff to secure project support and business continuity according to service level agreements. In cooperation with project teams, you drive the execution of related IT project roadmaps as major aspect of your job. Together with other Solution Architects you will define the technical design of the IT solutions. As part of your daily work, you ensure proper documentation of all activities performed in projects and during service management (e.g. qualification documents, work instructions, change requests,

vulnerability management, etc.). In your role as Qualification Owner, you will be accountable for all compliance aspects of the portfolio of GxP relevant systems in Spain and other European countries, including the security aspects.

Who you are:

- Academic Degree in computer or natural science or business administration
- Experienced delivery manager (4+ years) ideally for manufacturing, supply chain or quality systems
- Self-motivated, highly engaged individual with a strong customer focus and the capacity to learn and develop. Team player who is used to work virtually in an international organization. Thoroughly familiar with current Quality & GxP IT compliance trends for manufacturing & quality capabilities (e.g. IoT, LIMS, MES, etc.) and underlying technology. Broad IT infrastructure knowledge (i.e. OS, DB, system hardening, etc.)
- Solid (i.e. C-Level) presentation and communication skills. Solid foundation in IT service management methodology (preferably ITIL certification). Profound experience in working in cross-functional, multi-cultural teams
- Excellent command of written and spoken Spanish and English. Business fluent French is a strong plus.

sto es lo que ofrecemos: Somos mentes curiosas con distintas procedencias, perspectivas y experiencias vitales. Celebramos la diversidad en todas sus dimensiones, porque creemos que impulsa la excelencia y la innovación, las cuales son indispensables para mejorar nuestra capacidad de liderazgo en ciencia y tecnología. Abrir puertas y oportunidades es nuestro compromiso para que todo el mundo crezca y se desarrolle a su propio ritmo. Acompáñanos a crear una cultura de inclusión y pertenencia con impacto en millones de personas y que nos empodera a aplicar la magia y abanderar el progreso humano.

Envíanos tu solicitud ahora mismo y sé parte tú también de este equipo tan diverso.

Job Requisition ID: 279716
